9# - 160#

Stitchlength
9 mm

Weight
N.W 130 KG

Sewing foot lift
automatic

Automatic seam
backtacking

Thread
trimmer

Characteristics :

The switchable stitch loosening device, prevents squeezing when the shoulder pad is sewn through. Thus, the pad retains its volume and soft touch;
The fullness value is mechanically adjustable and depending on the application; it can be switched on in the upper or lower fabric by push button 5-function key bar, with quick access and favorite key for the functions : Fullness on top, fullness on bottom, 2nd foot stroke, 2nd stitch length, automatic material thickness detection, edge trimmer ON / OFF;
Large three-times vertical hook, with 60% higher bobbin thread capacity for reduced bobbin changes;
The optimized hook allow slowest thread tension;
The standard swiveling edge guide is comfortably adjustable in seam width;
